TERMINAL TRACTORS THAT MOVE THE YARD

AN EXPANSIVE HEADQUARTERS &

Based less than an hour north of Atlanta in Gainesville, Ga., Turbo Terminal Tractors operates on a 65-acre campus with a wide assortment of terminal tractors and truck trailers on-site. Our offices are located within a 48,000 square-foot-facility that includes 10 bays for maintenance and repair work.

TRANSPORTATION INDUSTRY

Our company was founded in 2006 but we have 40-years of experience in the trucking industry through our sister company Syfan Logistics, which we formed from. We originally started out as a truck repair shop, a foundation that continues to serve us well in the repair and maintenance of our customers' leased terminal tractor fleets.

Our 50-member team includes service technicians certified in Automotive Service Excellence (ASE), each with an average of more than 10 years of experience. ASE is the top certification awarded by the National Institute for Automotive Service Excellence.

“ Our company was founded in 2006 but we have 40-years of experience in the trucking industry. ”

ASE is the top certification awarded by the National Institute for Automotive Service Excellence.

TERMINAL TRACTOR SALES & LEASING PROGRAMS

With a large inventory of terminal tractors on-site or under lease, Turbo has the capacity to support your storage yard operations.

TERMINAL TRACTORS

Our vast inventory contains a diverse selection of pre-owned terminal tractors for sale – including quality brands such as TICO, Ottawa, Capacity, and Terberg. We also sell used trailers, and dry vans for customers who need additional assets.

Custom leasing programs are at the heart of our company focus. Whether leasing one terminal tractor or an entire fleet, you are able to keep your operations running in top shape. Turbo Service Solutions (TSS) is our dedicated team of terminal tractor maintenance professionals. Your leased tractor or fleet will be taken care of by our TSS Team!

Turbo is the nation's largest sales and leasing center for terminal tractors.

Our customers find great success with our New Every 2™ leasing program – this additional service allows you to replace each terminal tractor in your fleet with a new one every two years! This industry innovation has allowed Turbo to create a strong and reliable tractor replacement system that minimizes downtime with maximum uptime. Many have tried to imitate; no one can match New Every 2™.

Turbo customers can be confident that their tractor(s) will be continuously maintained by our expert Turbo Service Solutions (TSS) team. TSS is available 24/7 to help with anything from regular maintenance checks to larger issues. This maintenance program is included with every leased or rented unit and is designed to enhance your experience!

Our Service Solutions Team Ultimately:

- Reduces maintenance costs
- Streamlines the maintenance process
- Maximizes operational uptime by minimizing downtime

This proactive approach ensures consistent maintenance so as we focus on minimizing downtime, your focus can be directed towards maximizing productivity.

Our exclusive

app is a fleet-maintenance tool that streamlines communications and response time.

SAVANNAH OFFICE

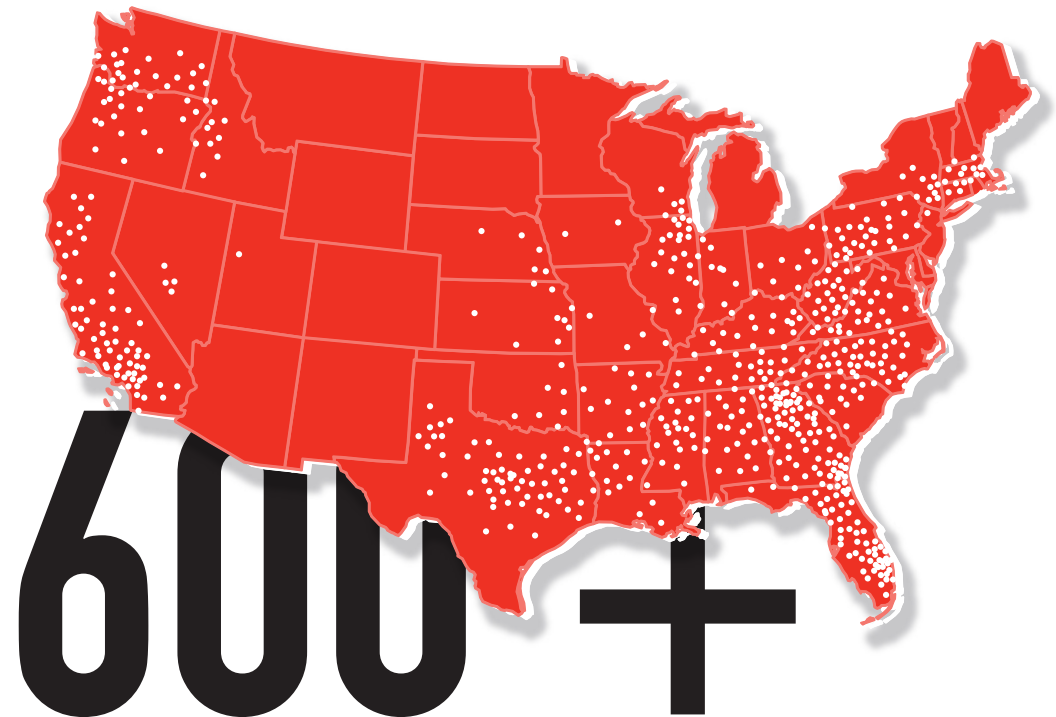

In 2023, Turbo Terminal Tractors opened a new office in Savannah, Georgia to better serve one of the fastest growing ports in the nation. Located just outside of Port Wentworth, this new branch put us in arm's reach of numerous distribution centers and warehouses in which we already conducted business. In addition to serving those existing customers, our new office gave us a base to offer terminal tractor leasing and around-the-clock maintenance on fleets to a host of new customers in the greater Savannah area. We look forward to further growing our customer base in the Southeast in the years to come.

Savannah office location: 230 Flonnel Avenue Suite 207
Port Wentworth, GA 31407

WORKING HARD IN YARDS

Turbo Terminal Tractors can be found in shipping yards, distribution centers, and warehouses across the United States. From Fresno to Fort Lauderdale, our “chili-red” colored bumpers can be spotted moving trailers and freight at all hours of the day.

TRAILER LEASING

No matter how or your yard is
we've got your terminal tractor solution.
